

Environmental Policy Statement

Egremont Group considers good environmental performance to be fundamental in the running of the organisation and is committed to minimising the impact of its activities on the environment.

Egremont Group requires all employees to take necessary steps on behalf of the Company to minimise environmental impact in the execution of their daily duties.

The key points of the strategy are:

- + Minimising waste and ensuring all processes are as efficient as possible
- + Minimising emissions by using public transport and lift sharing whenever possible
- + Actively promote recycling both internally and amongst clients
- + Actively attempt to offset greenhouse gas emissions generated by our activities
- + Egremont Group will comply with all relevant environmental legislation and ensure employees are aware of environmental issues and enlist their support in improving the Company's performance
